DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 13-20 in the reply filed on 6/21/10 is acknowledged. The traversal is on the ground(s) that each of Groups I and II share the common technical feature of directly marking the ends of each component so that all of the marks along the mounted components are substantially aligned, and that the Restriction Requirement has not established there is no unity of invention between the claims. This is not found persuasive because in accordance with the guidance set forth in MPEP 1850, it has been determined *a posteriori*, i.e., after taking the prior art into consideration, that the features common to all of the claims as identified by Applicants above do not constitute "special technical features" since they do not make a "contribution" over the prior art in light of at least Rioufol (EP 1 382 793 A1) cited by applicant, for example. Rioufol discloses marking the ends of each component (500) so that all of the marks (502, 505) along the mounted components are substantially aligned.

The requirement is still deemed proper and is therefore made FINAL.

Specification

2. The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. **Each of the lettered items should appear in**

Art Unit: 3726

upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase “Not Applicable” should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT.
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC.
- (f) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.
 - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (g) BRIEF SUMMARY OF THE INVENTION.
- (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (i) DETAILED DESCRIPTION OF THE INVENTION.
- (j) CLAIM OR CLAIMS (commencing on a separate sheet).
- (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A “Sequence Listing” is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required “Sequence Listing” is not submitted as an electronic document on compact disc).

Claim Objections

3. Claims 14-16 are objected to because of the following informalities: In **claim 14**, *line 4*, “a” is objected to because it is unclear as to how “a” could be the value when the preceding equation refers to “ α ”, therefore it is suggested to change “a” to - - α - -. In **claim 16**, *line 2*, “the” in its second occurrence is objected to because it renders the claim to be grammatically incorrect, therefore it is suggested to delete “the” in its second occurrence. Appropriate correction is required.

Allowable Subject Matter

4. Claims 13 and 17-20 are allowed.
5. Claims 14-16 are objected to as containing minor informalities as indicated above, but would be allowed pending correction of the minor informalities.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The reference listed on the attached PTO-892 is cited to show the threading of a tube.
7. This application is in condition for allowance except for the following formal matters:

The specification must be amended to include the appropriate section headings. Claims 14 and 16 must be amended to correct the minor informalities indicated above, and non-elected claims 21-24 must be canceled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
